2. In response to a question posed regarding the RFQ's:

*In the Section B, Project Description and Design Memorandum, Item 3C list Landscape Architecture for Green Infrastructure Design as the only Specialty Discipline/Firm. Also, on page D5 of 5, note 2, 2nd paragraph, it states "For this RFQ, refer to Section B, Scope of Work and Design Memorandum for a list of those professional specialties that are approved to participate in multiple team submittals". Does this mean that firms that*

*what to offer other specialty services such as survey, transportation planning, traffic engineering or other specialty services can only be a sub-consultant on one team?*

In response, Section 3. Engineering Expertise Requirements, sub-section C. is amended to include the following as Specialty Firms:

2. Traffic Engineering
3. Land Surveying

Sincerely,
