

Highland Rd - Buchanan St Sewer Area Upgrades

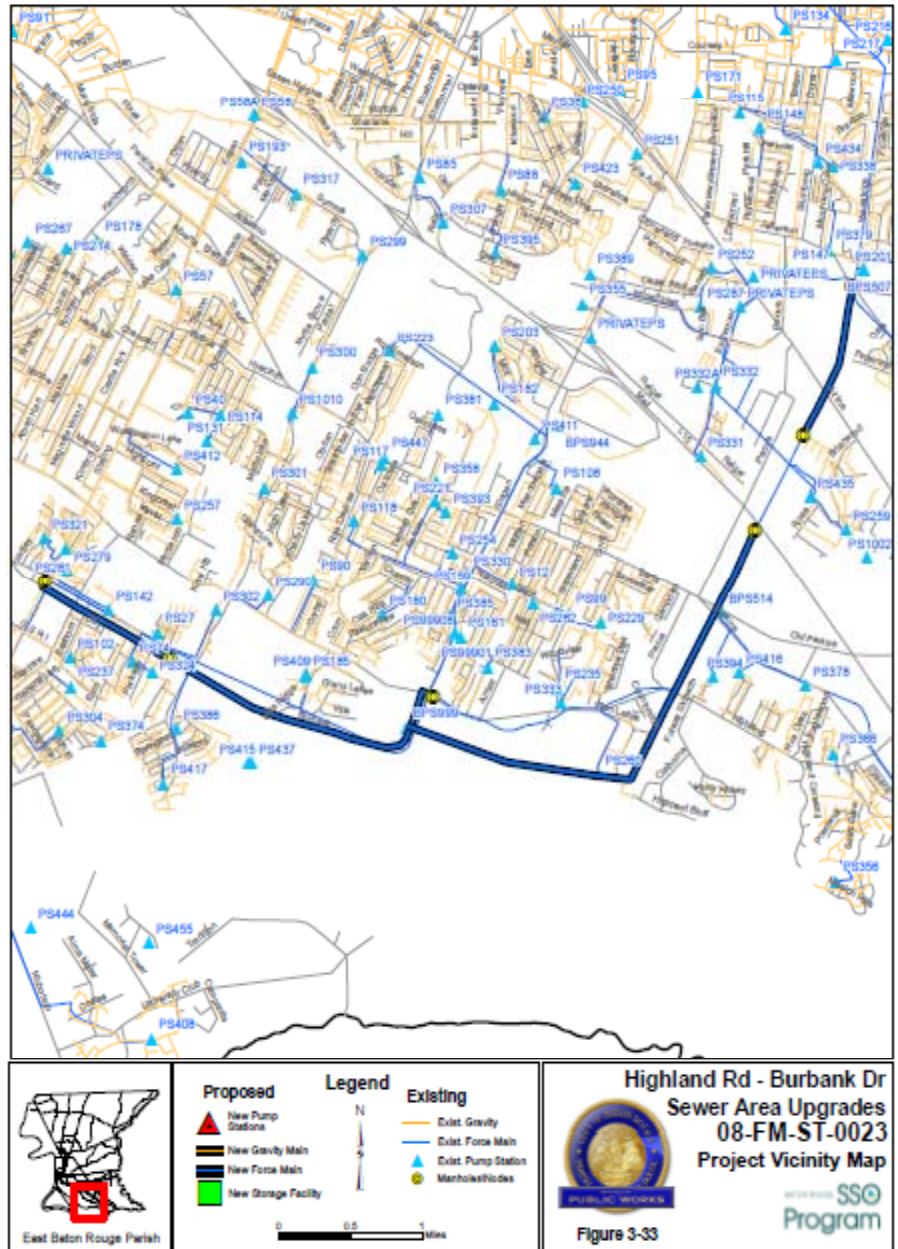

City-Parish # 08-GS-ST-0021

Advertise for Bids: **2nd Quarter 2010**
 Project End: **4th Quarter 2011**

The purpose of this project is to upgrade gravity sewers upstream of PS1, PS2, and PS5 to alleviate SSOs in the Central Gravity South basin. The original project from the January 2008 PDP had several hundred feet of gravity sewer deleted from it with several hundred feet of force main added to it due to Central Consolidation, and was combined with the CGS-C-0005 (Stanford Avenue – Ferndale Avenue) project.

Design of the Highland Road – Buchanan Street project started in March 2008.

A total of 7,620 linear feet of various sizes of force main will be constructed in the project area.

Highland Rd - Buchanan St Sewer Area Upgrades Project Facts

FORCE MAIN IMPROVEMENTS:

- 7,620 linear feet, 10-16 in. diameter
