South WWTP Immediate Action Plan (IAP) Combined Projects

City-Parish # 08-TP-BD-0031

Advertisement for Bids: Project End: 4th Quarter 2008 2nd Quarter 2011

The SWWTP Immediate Action Projects (IAP) consist of improvements to bring the treatment plant into compliance with current discharge limits.

Improvements are being made to primary treatment facilities, trickling filters process and the sludge handling facilities.

In May 2009, Mayor-President Kip Holden hosted the construction groundbreaking for the Immediate Action Projects at the SWWTP.

Construction of the trickling filter pump stations as part of the IAPs at the SWWTP.
