

# Zachary Area Transmission Network Improvements Capacity Improvement Project Phase 3

City-Parish #10-FM-IF-0004

Advertise for Bids: **4<sup>th</sup> Quarter 2010**  
Project End: **3<sup>rd</sup> Quarter 2014**

This project addresses inadequate capacity in the Baker/Zachary contributing area and to divert flow from the Zachary contributing area around the proposed Comite Diversion Canal to the NWWTP. Phase 3 includes the installation of new force main from Highway 964 to Red Mud Lakes storage facility.

Design of the Zachary Area Network Transmission project started in March 2008.

Nearly 32,000 linear feet of 48 inch diameter force main will be constructed in Phase 3 of the project.

Nearly 32,000 linear feet of force main will be constructed in the project area.
