

# Bluebonnet Blvd - Jefferson Hwy Area Rehabilitation Project (Phase 1)

City-Parish #10-AR-UF-0042

Advertisement for Bid: **1<sup>st</sup> Quarter 2011**  
 Project End: **4<sup>th</sup> Quarter 2012**

Rehabilitation of the sewer collection system is a comprehensive physical process that begins with cleaning and inspection of sewer pipes and manholes. Typical rehabilitation repairs include pipe and manhole replacement and trenchless technologies that minimize above ground disturbances, such as cured-in-place pipe liners.

One of the first steps in rehabilitation includes a physical inspection of manholes and pipes to identify blockages.

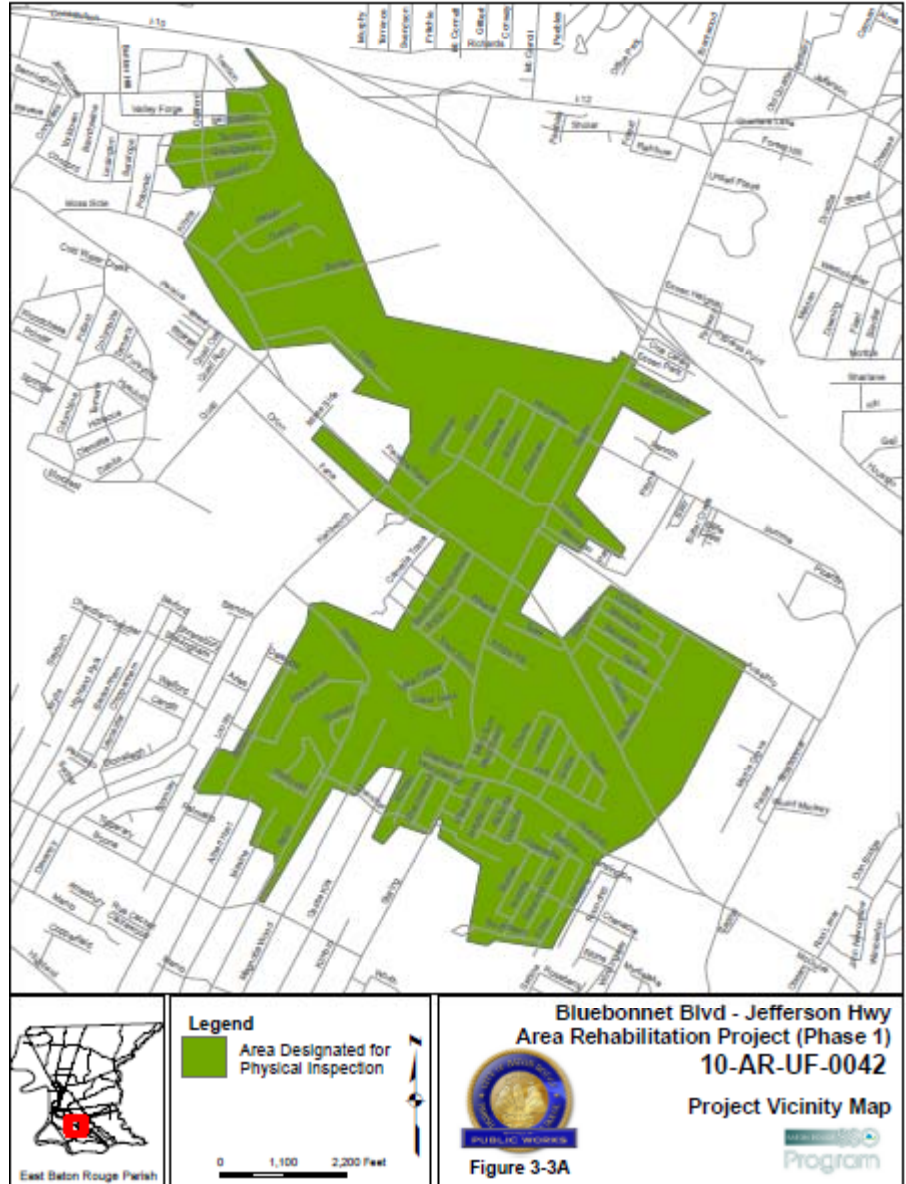

**Before**

Simply cleaning the pipes and manholes in preparation for the physical inspection removes blockages, debris and roots.

**After**

## Bluebonnet Blvd - Jefferson Hwy Area Rehabilitation Project (Phase 1) Project Facts

For this project:

- Approximately 176,632 linear feet of pipeline were inspected and rehabilitated
- Approximately 768 manholes were rehabilitated or replaced

Design Consultant:  
 Rehab Program  
 Mgmt Team.

Construction Contractor:  
 Allen & LeBlanc

**Estimated Construction Cost: \$4.4 M**
